Activity 1: Favourite Sports Survey

Instructions:

1. Open MS Excel and enter the following data.

Sport	Number of Students
Cricket	12
Football	8
Badminton	6
Basketball	5
Chess	9

- Select the data and **identify** the most suitable chart type to represent it.
- Insert the chart of your choice.

Format:
- Add the chart title "**Students' Favourite Sports**"
- Add suitable horizontal and vertical **axis titles**, if applicable to the selected chart.
- Apply a suitable **chart style** and **colour**.
- Display **data labels** on the chart, where appropriate.

Activity 2: Weather Report

Enter the following data in a new worksheet (Sheet 2)

Day	Temperature (°C)
Monday	28
Tuesday	30
Wednesday	32
Thursday	29
Friday	31

Instructions:

- Select the given data and **decide which chart type** is most suitable for showing temperature changes over five days.

Format:

- Insert the chart and add the title "**Daily Temperature Report**"
- Add appropriate **axis titles** and **data labels**.
- Apply a suitable **chart style** and format the chart neatly.
- **Write one sentence below the chart describing the temperature trend.**
- Save the file as Name_grade_Charts
